

SureSwab Rapid

A quick and easy form of oral drug screening

The SureSwab Rapid is an easy-to-use screening test to detect multiple drug parameters in oral fluid. It is designed to be less invasive for improved donor experience and enables rapid collection time. A simple solution suitable for workplace, rehab and clinical testing.

- ✓ **Small swab for easier saturation**
- ✓ **Indicator to display sponge is fully saturated**
- ✓ **Detection of both parent and metabolic Cannabis**
- ✓ **Slimline design for easy transportation or storage**
- ✓ **Test up to 6 parameters simultaneously**
